MeV
Modeling, Experimentation, & Validation
SUMMER SCHOOL
www.MeVSchool.net

The Modeling, Experimentation, and Validation (MeV) Summer School is an intensive two week on-site program for early career researchers and scientists. The school is to be held **July 21 - August 1, 2025,** and hosted by Oak Ridge National Laboratory (ORNL) located in Oak Ridge, TN, USA. It will focus on the topic of **Tackling Materials Challenges for the Next Generation of Nuclear.**

| Nuclear Fundamentals | Experimental Design | Modeling and Simulation | Light Water Reactor Sustainability | Nuclear Fuel Cycle | Advanced Reactors | Radioisotope Production | Fusion Materials |

SCHOOL OPPORTUNITIES

Networking with experts from academia, government agencies, laboratories, industry, and fellow students

Discussions with experts to foster discourse on exciting curriculum topics

Laboratory tours of world-class nuclear facilities

Exploration of computational tools for modeling and simulation in nuclear engineering

EVENT DETAILS

July 21 - August 1, 2025
